

IC Nexus and KAL Bring 90nm and Finer Nodes ASIC Services to Israeli Market

Services Firm Partners with Israeli ASIC Design Services Agency to Serve Customer Needs

Taipei, Taiwan and **Hadera**, Israel – March 20th 2007. In order to meet the demanding performance and low-power consumption requirements of electronic devices, electronic designers need to gain access to the latest semiconductor foundry technologies. IC Nexus and KAL (Katav Associates) have established a close partnership to enable Israel based design engineers to take advantage of Fujitsu's sub-100 nanometer (nm) processes for the design of cost-effective, low power and low leakage ASICs projects.

IC Nexus, in recognition of this requirement, has appointed KAL, an Israeli company specialising in consultancy of ASICs and MCMs as its business promotion agency to explore this growing area of interest for high performance ASICs in the Israeli market. Through the close partnership with KAL, IC Nexus is able to offer Israeli clients access to Fujitsu's state-of-the-art 90nm CMOS process. This process, and the 65 nm one which is in development, are ideally suited to this market, having considerable low current leakage capabilities.

IC Nexus and KAL will support the design engineer at every stage in the process of specifying, prototyping and final production of the sub 100nm ASICs, based on its unparalleled experience of consultancy, design, and manufacture of ASICs.

About IC Nexus

IC Nexus is a leading fabless ASIC design & manufacturing services company, providing RTL to ASIC design services and silicon fabrication service. The Company is headquartered in Taipei, Taiwan and credits its success to a strong technological base, a competent and qualified workforce, and a highly trained, strategically distributed support network. The company is now

partnering with Fujitsu to offer its customers deep submicron- 90nm and finer geometry ASIC design services and Fujitsu wafer foundry services.

For more information and inquiries about our products and services, please contact us via Telephone: +886 2 27891200, Email: sales@icnexus.com.tw, Website: www.icnexus.com

About KAL

KAL is a leading consultancy and project management leader in Israel providing services for the Israeli and Middle-East based companies. KAL is providing the customer with expert consultancy services form ASIC project feasibility to mass production and ASIC services includes design, manufacturing and re-sable silicon IP for digital, analog, RF and mixed Signal ASIC project..

For more information and inquiries about our products and services, please contact us via Telephone: +972-4-6201129 ext 4, Email: info@KALtech.co.il, Website: www.KALtech.co.il
